CLIENTS REVIEW

Megapower has been fantastic and spot on with their on time delivery and VAS. They are professionally sound and did not leave any stone unturned leaving no room for complaints. They are Proactive from Order acceptance to Delivery and Installation. It was a smooth sail and a one stop shop. I looked no further as they overcame the distance and provided on time all round support throughout. I strongly recommend Megapower to all looking for rental & outright purchase of Generators. We wish Megapower success in all their endeavours.
